- I was an intern in the field of network at Guilan Technology Park for 6 months.
- Networking systems, settings and configuration of Cisco routers, socket network cables and RJ45.
- My undergraduate GPA score is 2.00 (in Iran= 14.98 / 20.00)
- I have work experience in the field of Android programming, but as a beginner.
- Computer hardware and software repairs.
- I have worked with Office programs such as Access, Excel, Word and PowerPoint.
- Also, I've worked with Adobe applications such as Photoshop, Dreamweaver, Illustrator, Muse, After Effects, Audition and Lightroom.
- Photo and logo design.
- I have also designed many websites.

INTERESTS

I'm interested in other science and technology items listed below

Learning

I always like to Learn and improve my abilities and skills, mostly in Web Design major and coding

Data mining

I am very interested in data mining, and Nowadays, I am learning it with some SEO tools

Blockchain

Blockchain is also an interesting field in the field of IT for me, even in my undergraduate I tried to set up my own digital currency on binance network

Network

I am also interested in networking systems and setting up internal and external internet systems, because it is both related to our university field and my internship experience

E-commerce / Affiliate Marketing

In addition to my work in my website design agency, I have an E-commerce website, and I am very interested in affiliate marketing and digital marketing

Trading

I Really like trading, absolutely I trade in cryptocurrencies
